GAMES GROUP

GAMES CAMP

Next-Generation
From Gamer to Game Maker

From Gamer to Game Maker

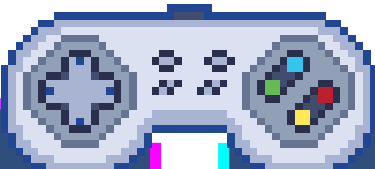

Savvy Next-Gen Camp is an interactive educational experience that gives students the opportunity to discover the world of game design and turn their ideas into game projects in a stimulating environment that combines creativity, teamwork, and design thinking.

The program does not only offer a fun experience. It helps participants understand how games are designed, and how an idea turns into rules, characters, mechanics, and a presentable project.

Why this program?

For game lovers, the program turns this interest into a meaningful educational experience that develops thinking, collaboration, communication, problem-solving, and time management skills.

Tracks

Senior Track

Ages 14 to 17

A fun and accessible experience to discover the fundamentals of game design and teamwork.

Junior Track

Ages 10 to 13

A hands-on track that develops participants' skills in game design and building a creative project.

What will participants learn?

Use creativity and design thinking

Compete to win in the final competition

Develop a game idea with your team

Present the final project

Learn the fundamentals of game design

Design rules and game mechanics

Morning Session
10:00 AM – 2:00 PM

Afternoon Session
4:00 PM – 8:00 PM

20 educational hours
From 26 – 30 July 2026

Final Outcome

At the end of the program, each group presents its project in a final competition, where participants compete to win.
